

## 2014 Graduate

My name is Francis Thuo, a pioneer student at St. Josephine Bakhita Mixed Day School. I started my secondary education at the institution in the year 2011. The institution helped me to grow spiritually since it was a Catholic school. I worked hard in my studies and completed my secondary studies in the year 2014.

In the year 2015, I joined the National Youth Service (NYS) college and completed the national service in the year 2016. My enrollment at NYS helped me join Kabete Technical Training Institute (KTTI) early this year where I am pursuing a course in Air Conditioning and Refrigeration. I am so grateful to be a member of this college and I am aiming higher towards my dream.

I am so grateful to all the stakeholders of St. Josephine Bakhita Mixed Day Secondary School who helped with a platform to focus towards my dreams, and eventually moving to the path to achieve it. I wish all God's blessings and success in their endeavors.
