

Ryan: Form Four - 2018

My name is Ryan. I am a Form Four student at St. Josephine Bakhita Secondary School. I am Eighteen years old. I live with my grandmother at Gitare. I love engaging in activities such as playing soccer in the fields and swimming in the river.

St. Josephine Bakhita has done much for me. I was admitted in this school on 28th January 2015 in Form One. I love the place. The compound of the school makes it a beautiful place. Everything in Bakhita has helped me become a better person. Things that were difficult for me now seem to be much easy. I have also known the benefits of achieving one's goals and building my future. With the help of our teachers and the board at large they have made everything in my secondary school life better.

The new revision books will help us improve in our academic performance. Thanks to our loving principal, students have been able to improve. Discipline has ruled the whole school.

St. Josephine Bakhita Secondary School has helped parents to educate their children and become better people in future. St. Josephine Bakhita Secondary School reflects my future. The same way it had a humble beginning, that's how my future looks like. Though humble, I know my future will be great. At the end of four years, I have grown both mentally and spiritually, just as our school mission states.
